

**POLYFAT®**

**HPF**

## Product Description

**POLYFAT® HPF-16** is a premium feed supplement specially formulated with fractionated palm fat added with high percentages of selected phospholipids, Lecithin. Phospholipids function as emulsifiers for fats and help to improve the metabolism of cholesterol in the digestive system. Additionally, its unique appearance (fine beads) from spray-dry technology make it readily digestible.

Its is formulated with surplus of fatty acid and effective fat additives for the consumption of broiler and layer.
